

**Date:** August 11, 2008

**To:** All Piaggio/Vespa Dealers

**Subject:** GTS 250 *Super* Badge

Dear Dealers,

It has recently been brought to our attention that the initial shipment of GTS 250 *Super* scooters has been incorrectly badged as GTS 300 *Super*. The badge is located on the right rear side cover next to the vent.

This error is limited to fewer than 100 scooters and corrective action has been taken at the assembly plant to prevent future occurrences. We have identified the dealers that received this batch of scooters and we will be sending correct replacement badges in the coming weeks.

Please be assured that this is a badge error only and the scooters are equipped with the 250cc engine. This can be verified by the numerals 45 appearing in the 5<sup>th</sup> & 6<sup>th</sup> digits of the Vehicle Identification Number.

We apologize for this error and any inconvenience it may have caused.

Sincerely,

Piaggio USA Marketing
